

TR2000

Brake disc and drum lathe

The TR 2000 is a lathe-grinding machine for reconditioning brake discs, drums and flywheels of trucks, commercial vehicles and cars. It is the top model in our product range and one of the most complete and sophisticated brake lathe currently available on the market. The sturdiness and rigidity of the body, together with the large 60 mm diameter arbor and its bearing spindle, dump all vibrations and ensure the correct machining without the use of the support tailstock (available on demand), so as to ease and speed up the mounting procedure, even on wheels with mounted tyres.

Images may show the product equipped with optional accessories

Standard equipment

Adjustable spindle speed with digital display
Adjustable and intermittent feed on longitudinal table
Integrated halogen spot light
Boring bar support
Boring bar for large drums
Ø 20 mm drum turning insert tool holder
Drum turning insert tool holder 12x12x80 mm
Truck drum silencer band
Safety guard
Chip-collector tank
Ø 60 mm shaft with nut and spanner
Ø 60 mm spacers (4 pcs.)
Centering cones (8 pcs.)
Wrench set
Instruction manual

Specifications

Min-Max drum turning diameter: 240-1000 mm
Min-Max disc turning diameter: 0-700 mm
Longitudinal table travel: 300 mm
Cross slide travel: 155 mm
Spindle rotation speed: 10-120 rpm
Longitudinal table feed: 0-180 mm/min
Cross slide feed: 0-180 mm/min
Spindle motor power: 1.85 kW
Table motor power: 2x60 W
Dimensions (LxWxH): 1870x1430x1470 mm
Weight: 770 kg

Accessories

UT0011
Rim insert tool holder

UT0012
Replacement insert for UT0011, UT5008 and UT5009 (10 pcs.)

AP60
Truck drum adapter set - Ø 60 mm arber

ALV30

Car and light truck adaptor set - Ø 30 mm arbor

PV2250

Adjustable twin cutter tool assembly

UT2015

Large drum insert tool holder

PVC060

Drum grinder

FBR001

Boring bar/drum grinder combination support

PV2120

Am crane for drum lifting

VDT100

Drum diameter digital readout

AC2188

Brake drum universal adapter plate

AC2180/3

Brake drum adapter plates
